

Facility

Consisting of a newly renovated 30-acre facility, SBS-VS offers ambulatory and on-site veterinary care for all ages and disciplines of equine patients. Located in Chesapeake City, Maryland, we are situated between the major population centers of Baltimore and Philadelphia, with easy access to major regional and interstate highway systems.

Stalls

- 14' by 14' block stalls with rear window and side ventilation
- Foaling Stall, 20' by 20', with hard wired and Internet based cameras for patient monitoring
- Stall fronts are powder-coated mesh and the floors have interlocking mats for padding and footing

Paddocks

- One to five acres in size
- Run-in sheds and freshwater provided
- Established grasses and rolling terrain

Stocks

- Custom designed stocks will accommodate all sizes and shapes of mares and foals
