

## SBS Veterinary Services

### Overview

*In 2013 Select Breeders Services founded a partnership with David Scofield, DVM, Board Certified in Equine Reproduction, to expand our veterinary care and mare management services in Chesapeake City, Maryland. Through this new division of SBS, operating under the name SBS-Veterinary Services (SBS-VS), Dr. Scofield and the SBS team provide reproductive services, including the management of breeding and foaling mares, advanced diagnostic techniques and therapies, embryo transfer, and routine veterinary care from our facility located in Chesapeake City, MD – just down the street from our state of the art stallion reproduction, and frozen semen storage/ distribution facility. Together SBS and SBS-VS are able to provide a full spectrum of equine reproductive services to our clients.*

## Who is SBS-VS?

### David Scofield DVM, MS, DACT

*Dr. Scofield brings to SBS-VS a strong background in general equine practice, embryo transfer, mare management, foaling services, and infertility of the mare and stallion. Dr. Scofield grew up in Delaware and on the eastern*

*shore of Maryland. He received his DVM from Oklahoma State University in 2009. Following graduation, Dr. Scofield completed an internship at Weatherford Equine Medical Center in Weatherford, Texas and later joined Colorado State University's Equine Reproduction Laboratory for a residency in Equine Reproduction.*

### Paul Loomis, CEO and Founder Select Breeders Services

*Paul established Select Breeders Services in 1987 with the belief that equine breeders needed a reliable source for the burgeoning artificial insemination technology. SBS is now the largest provider of equine semen preservation*

*services in the world with a reputation for quality service and superior technology.*

*Paul is a recognized expert in the field of semen preservation. He is a graduate of Colorado State University with a M.S. in Physiology (equine reproduction and semen preservation). Coupled with SBS's proven commitment to stallion reproduction and quality service, Paul is excited to offer expanded mare management and veterinary services in Chesapeake City through SBS-VS.*

## Practice Goals

SBS-VS was formed on the strong foundation established by Select Breeders Services with greater than 25 years of demonstrated excellence in equine reproduction.

- Provide top-level reproduction services in the Eastern US
- Produce foals from reproductively challenged mares and stallions
- Increase client access to frozen semen stores in the US and imported genetics from abroad
- Provide client-centered services and management programs that focus on successful outcomes

## Veterinary Services

SBS-VS provides ambulatory care and on-site veterinary services.

- General horse and herd health
- Vaccinations and dental prophylaxis
- Medical and ophthalmic conditions
- Foal and weanling care
- Lacerations and minor surgery
- Recuperation and lay-up supervised by veterinary staff

## Mare Management and Embryo Transfer Services

SBS- VS provides complete reproductive management.

- AI with fresh, cooled, or frozen semen
- Low-dose and deep-horn insemination
- Breeding Soundness Exams (BSE)
- Breeding barren and problem mares
- Embryo transfer service
- Recipient mare herd and recipient mare management
- Oocyte aspiration for ICSI
- Foaling services

## Facility

Consisting of a newly renovated 30-acre facility, SBS-VS offers ambulatory and on-site veterinary care for all ages and disciplines of equine patients. Located in Chesapeake City, Maryland, we are situated between the major population centers of Baltimore and Philadelphia, with easy access to major regional and interstate highway systems, training centers, and show-facilities.

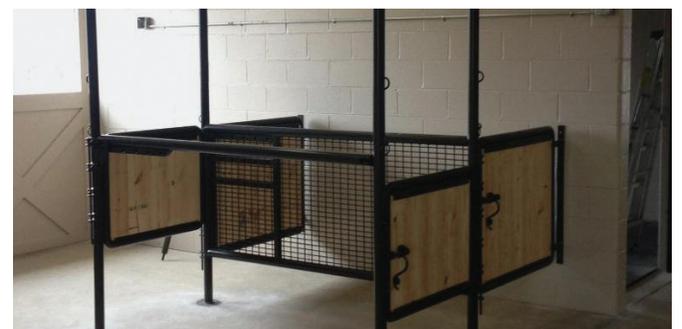

## Stalls

- 14' by 14' block stalls with rear window and side ventilation
- Foaling Stalls, 14' by 20', with hard wired and Internet based cameras for patient monitoring
- Stall fronts are powder-coated mesh and the floors have interlocking Rubber mats

## Paddocks

- One to five acres in size
- Run-in sheds and freshwater provided
- Established grasses and rolling terrain
- Mare motel shed row with attached runs

## Stocks

Our custom designed stocks will accommodate all sizes and shapes of mares and foals at their side
